SUMMARY

Front-End Developer with 2+ years of experience building responsive and user-friendly web applications. Computer Science graduate with a strong understanding of software engineering concepts and hardware systems, along with a solid background in IT. Focused on delivering clean, efficient interfaces and enhancing overall user experience.

EDUCATION

Thebes academy

2020 – 2024

BACHELOR'S DEGREE IN COMPUTER SCIENCE

Coursework:

Coursework & Technical Knowledge: Data Structures & Algorithms | Object-Oriented Programming (C++, Java) | Database Systems (SQL, MySQL) | Operating Systems | Computer Networks (CCNA Basics) | Software Engineering Principles | Web Development (HTML, CSS, JavaScript, Typescript, React, Next) | IT Support & Troubleshooting | Hardware Systems & Maintenance | System Administration Basics | Networking Fundamentals

CERTIFICATES

Front-End Development Internship

07/2025 – 12/2025

Contact Company | July 2025 – December 2025

Completed a certified front-end development internship, building responsive web and mobile applications and developing user-friendly interfaces. Collaborated within a team environment while applying best practices in UI/UX and performance optimization.

Front-End course

01/2025 – 06/2025

Eraasoft | Jan 2025 – Jun 2025

Completed a 6-month certified front-end development course, accredited by the Engineers Syndicate (2025)

Flutter level 1 , 2

07/2022 – 09/2022

Masa for Training and Consulting

Completed foundational and intermediate training in Flutter, building mobile applications and understanding core UI development concepts.

Network level 1 , 2

04/2022 – 06/2022

Masa for Training and Consulting

Completed foundational and intermediate training in networking, covering network fundamentals, configurations, and basic troubleshooting.

SKILLS

- **Front-End Development:** — HTML5 | CSS3 | JavaScript (ES6+) | TypeScript | React.js | Next.js
- **State Management:** — Zustand | Context API | Redux
- **API Integration** — REST APIs | Axios | Fetch API | JSON
- **UI/UX & Design:** — Figma | Adobe Photoshop | Adobe Illustrator
- **Tools & Platforms:** — Git | GitHub | VS Code | Vercel | Netlify | WordPress | Strapi (Headless CMS)
- **Programming Fundamentals:** — C++ | C | Java | OOP | Data Structures & Algorithms SOLID | Design Patterns | Agile | Scrum | SDLC
- **Concepts & Methodologies:** — Object-Oriented Programming (OOP), | Data Structures & Algorithms, | SOLID Principles, Design Patterns, | Agile & Scrum, SDLC
- **IT Support & Hardware** — Computer Hardware | Windows | Linux | Operating Systems | Hardware Troubleshooting | Software Installation Technical Support | Driver Installation | Basic Networking

EXPERIENCE

CONCENTRIX-Technical Support Advisor (Dish TV Account) – Full-Time

01/2026 – 06/2026

- Diagnosed and resolved **hardware, software, network, and connectivity** issues while maintaining high customer satisfaction (CSAT).
- Provided technical support through phone and ticketing systems, troubleshooting customer issues efficiently.
- Used **CRM** and ticketing tools to document, track, and resolve technical cases.
- Collaborated with cross-functional teams to escalate and resolve complex technical issues while meeting **KPIs, FCR, and AHT** targets.

Frontend Intern – Contact Company (july2025 –December 2025)

07/2025 – 12/2025

Internship Type: Full-time Focus: Front-End Development (React)

- Contributed to real-world web applications using **React, JavaScript (ES6+), HTML5, and CSS3**.
- Built **responsive, reusable UI components** and translated **Figma designs** into pixel-perfect interfaces.
- Integrated front-end components with **RESTful APIs**, handled dynamic data, and ensured cross-browser compatibility.
- Participated in **code reviews, debugging, and team collaboration** using Git/GitHub

Front-End Developer (Freelance / Project-Based) Self-Employed / Multiple Projects

01/2025 – 06/2025

- Built responsive web applications using **React.js, JavaScript, Tailwind CSS, HTML5, and CSS3**.
- Developed reusable components, form validation, and dynamic user interfaces.
- Integrated APIs and optimized application performance.
- Collaborated with clients to gather requirements and deliver production-ready solutions.

IT Operations Assistant –The Address Investments

03/2023 – 09/2023

- Provided day-to-day **IT support** and system maintenance.
- Managed user accounts, software installation, and system updates.
- Maintained internal databases and ensured data accuracy.
- Supported hardware troubleshooting and technical issue resolution.

IT intern-(Help Desk) – El Malahy

07/2022 – 10/2022

- Installed and configured **Windows operating systems** and software.
- Diagnosed and resolved **hardware, software, and basic network** issues.
- Performed PC maintenance, driver installation, and system troubleshooting.
- Assisted end users with technical support and issue resolution.

PROJECTS

ServixaOS Business Website (Client Project)

- Designed and developed a responsive business website using **React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS**.
- Built reusable UI components and implemented responsive layouts for desktop and mobile devices.
- Integrated interactive features including **contact forms**, smooth navigation, and performance optimizations.
- Deployed the application on **Vercel** and configured a custom domain.

Skyline Electrical Company Website (Client Project)

- Designed and developed a responsive corporate website for **Skyline Electrical Company** using **React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS**.
- Built reusable UI components and converted **Figma** designs into pixel-perfect, responsive interfaces.
- Implemented interactive sections, smooth navigation, and contact forms to enhance user experience.
- Optimized website performance, SEO fundamentals, and cross-browser compatibility.
- Deployed the application on **Vercel** and integrated it with a custom domain.

Contact Company – Corporate Website (Front-End Internship Project)

- Developed and enhanced the company's official website using **React.js**.
- Implemented responsive layouts, reusable components, and interactive UI features.
- Improved website performance, accessibility, and cross-browser compatibility.
- Collaborated using **Git/GitHub** within an Agile development workflow.

DeshFlix – Movie Streaming Web Application (personal project)

- Developed a **Netflix-inspired movie streaming web application** using **React.js, JavaScript (ES6+), Tailwind CSS, HTML5, and CSS3**.
- Integrated a **REST Movie API** to display trending movies, TV shows, categories, and detailed content dynamically.
- Implemented **real-time search, category filtering, hover trailer previews, and responsive UI** for an enhanced user experience.
- Optimized application performance using reusable components, efficient state management, and responsive design principles.

Nova – Landing Page Website | Personal Project

- Designed and developed a responsive landing page using **HTML5, CSS3, and JavaScript (ES6+)**.
- Built a modern user interface with smooth animations, interactive elements, and responsive layouts.
- Optimized the website for cross-browser compatibility and mobile devices.
- Improved page performance by writing clean, semantic, and maintainable code.
