SUMMARY

Front-End Developer with hands-on experience in React, JavaScript, and modern UI frameworks. Completed a certified front-end course at Eraa Soft and contributed to real-world web and mobile applications through an internship at Contact, building responsive and user-friendly interfaces.

EDUCATION

Thebes academy

2020 – 2024

BACHELOR'S DEGREE IN COMPUTER SCIENCE

Coursework:

Data Structures & Algorithms | Object-Oriented Programming (C++, Java) | Database Systems (SQL, MySQL) | Operating Systems | Computer Networks (CCNA Basics) | Software Engineering Principles | Web Development (HTML, CSS, JavaScript, React)

CERTIFICATES

front end course at Eraasoft

Completed a 6-month certified front-end development course, accredited by the Engineers Syndicate (2025)

Flutter level 1, 2 organized by Masa for training and consulting

the period from 16/7/2022 till 1/9/2022.

Network level 1, 2 organized by Masa for training and consulting

the period from 16/7/2022 till 1/9/2022.

SKILLS

Front-End Development:

HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js (basic), React Native (basic), Tailwind CSS, Bootstrap, SASS, AJAX

Tools & Platforms:

Git, GitHub, Visual Studio Code, Netlify, Vercel, WordPress, Strapi (Headless CMS)

Programming Fundamentals:

C++, C, Java (basic)

State Management:

Zustand, Context API, Redux (basic)

UI/UX & Design:

Figma, Adobe Photoshop, Adobe Illustrator

Concepts & Methodologies:

Object-Oriented Programming (OOP), Data Structures & Algorithms, SOLID Principles, Design Patterns, Agile & Scrum, SDLC

EXPERIENCE

CONCENTRIX-Technical Support Advisor (Dish TV Account) – Full-Time

01/2026 – Present

- Diagnosed and resolved hardware and connectivity problems, ensuring minimal service disruption.
- Guided customers through step-by-step technical solutions with clear and effective communication.
- Maintained high performance metrics (KPIs) including customer satisfaction (CSAT), first call resolution (FCR), and average handling time (AHT).
- Utilized CRM and ticketing systems to document, track, and resolve customer issues efficiently.
- Collaborated with internal teams to escalate and resolve complex technical cases
- Strengthened problem-solving, communication, and multitasking skills in a high-volume support environment.

Frontend Intern – Contact Company (July 2025 – December 2025)

07/2025 – 12/2025

Internship Type: Full-time, Hands-on Technical Internship Focus: Front-End Development (React)

- Contributed to real-world web applications using **React, JavaScript (ES6+), HTML5, and CSS3**.
- Built **responsive, reusable UI components** and translated **Figma designs** into pixel-perfect interfaces.
- Integrated front-end components with **RESTful APIs**, handled dynamic data, and ensured cross-browser compatibility.
- Participated in **code reviews, debugging, and team collaboration** using Git/GitHub

Front-End Developer (Freelance / Project-Based) Self-Employed / Multiple Projects

01/2025 – 06/2025

- Developed multiple web projects using **React, JavaScript, and Tailwind CSS**, converting UI/UX designs into responsive interfaces.
- **executed forms validation, dynamic data rendering, and reusable components.**
- Collaborated with clients to meet requirements and gained **hands-on experience in real-world front-end workflows.**

IT Operations Assistant –The Address Investments

03/2023 – 09/2023

- Supported day-to-day IT operations and system maintenance.
- Monitored and managed company systems related to property listings and client data.
- Managed and updated property data across internal systems.
- Ensured data consistency and accuracy for listings and client records.

IT intern-(Help Desk) – El Malahy (2022)

07/2022 – 10/2022

Provided technical support and troubleshooting for **hardware, software, and network systems.**

PROJECTS

Front-End Developer (Project – ServixaOS Website) Self-Project / Client-Oriented Web Solution

01/2026 – 01/2026

- Designed and developed a modern, responsive business website (ServixaOS) using React, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Built a clean and scalable UI aligned with brand identity (blue & white theme) and optimized for performance.
- Implemented reusable components and structured layouts for maintainability and scalability.
- Integrated interactive features such as contact forms, live chat, and smooth navigation to enhance user experience (UX).
- Optimized the website for cross-browser compatibility and mobile responsiveness.
- Deployed the website and connected it to a custom domain using hosting platforms (e.g., Vercel / Namecheap).

Company Main Website (Internship Project)

- Developed and enhanced the **official company website** as part of internship tasks.
- Implemented responsive design, reusable components, and dynamic features.
- Optimized performance and fixed UI/UX issues on desktop and mobile.
- Followed production-level development practices with **version control (Git/GitHub)**.

Real Estate Management Web Application

- Built a scalable real estate web app, implementing dynamic property listings and filtering.
- Developed reusable components and applied responsive design for all devices.
- Focused on UI consistency, performance, and usability.

E-commerce Product Page (Eraa Soft Course Project – 2025)

- Implemented a dynamic product catalog with filtering and search functionality.
- Built a shopping cart system using Context API for state management.
- Integrated a headless CMS (Strapi) for product data.
- Styled the interface with Bootstrap and custom CSS3.
